Please read this and look over the entire report before Tuesday's meeting. That will save a lot of meeting time.

## RECEIPTS \& EXPENSES

- $92 \%$ of the year is over so when looking at $\%$ of budget keep that in mind.
- RECEIPTS: Year to date (YTD) operating income is short of expectations (88\%)
(1) Due mostly to lagging Pledges. I am hopeful for a good December.
(2) We will be getting 1 DIT distribution (about $\$ 8,800$ ) at the end of December which will most surely help. Plus, we have a small Tozer-Miller distribution in early December.
- EXPENSES: Operating expenses for the year to date are a bit below expectations (88\%). But remember, even if we meet expectations in both Operating Income \& Operating Expenses, we will run a deficit for the year; approximately $\$ 18,000$.
(1) There really is nothing that stands out in the expenses. Most everything is just about where we expect.
- NET OPERATING INCOME: The budget deficit sure grew this past month. Please notice that even though both Operating Receipts and Operating Expenses were the same percentage of the budget we still have a $\$ 16,000$ deficit.

SEPTEMBER RECEIPTS \& EXPENSES CORRECTIONS. Due to Jerry's time off her last paycheck for October wasn't processed until November, even though it was dated in October. This caused several accounts to be underreported last month. These corrections address the late booking.
RECEIPTS \& EXPENSES OVER TIME - If you first look at incomes you see that 2023 is quite a bit higher that 2021 but nearly the same as 2022 - except for pledges. Indeed, virtually all our receipts falling below last year is all due to a shortfall of pledges. On the cost side all accounts are higher in 2023 than in 2022 and all but 3 are higher in 2023 than in 2021; the impact of this inflationary burst we've experienced. In other words, the pattern is very similar to what we have been seeing all year.
